Investment Objective

The Balkerne Asset Management Growth ISA (Individual Savings Account) is an actively-managed portfolio of 30 to 45 holdings and has the Investment Objective to provide long-term capital appreciation, with less emphasis on income, and a **Higher than Medium Risk Profile**.

Suitability

This portfolio is suited to clients who understand that the level of potential return on their investment should increase as a result of taking greater risk. They also understand that to achieve the potential for higher returns, their investment may fluctuate substantially at times, but that over the longer term they could achieve a higher level of return than from a 'Balanced' portfolio. The value of investments, and the income from them, are not guaranteed and may rise and fall to a greater extent than with a 'Balanced' portfolio.

Investment Policy

To achieve the investment objective by investing principally, but not exclusively, in UK blue-chip equities (minimum weighting 50%) and, as appropriate, fixed-interest/bond investments, property, international (minimum weighting 10%) and specialist stocks through collective investments and alternative investments (such as absolute return funds or multi-asset strategy funds).

Valuations & Reporting

Quarterly valuations are issued as at 31 March, 30 June, 30 September and 31 December of each year. Included with the valuation is a schedule of income received for the period.

Asset Allocation (as at 18/04/2023)

Lead Manager's Commentary as at 31.03.23

The Growth ISA returned **-0.7%** over the first quarter of 2023 and **-11.3%** over the last 12 months.

Performance was driven by both asset allocation and stock selection. We are underweight in fixed-interest/corporate bonds and retain a zero weighting to direct sovereign debt. Our best performing fund over the quarter being Rathbone Ethical Bond Fund.

The Growth ISA is overweight equities. Outperformers in the quarter included Vistry Group, Rentokil Initial, Ibstock, Softcat and 3i Group Trust. Underperformers included Anglo American, Spirent Communications, Scottish Mortgage Trust and Edinburgh Worldwide Trust.

Our best performing commercial property holding was Londonmetric Property REIT and our best performing alternative was Empiric Student Property.

One new holding was established in the quarter, Rathbone Ethical Bond Fund. Four positions were exited in the quarter, Haleon, Melrose Industries, 3i Infrastructure Trust and First Trust Cloud Computing ETF.

The Growth ISA is defensively positioned as the extended period of low interest rates and benign credit conditions comes to an end. We continue to favour UK & International equities over corporate debt and retain a zero weighting to direct sovereign debt.

Company Profile

At Balkerne Asset Management we have always held the belief that managing client monies is a privilege and not a right and it is this ethos which underpins the day to day management and processes within the organisation. Established since the early 1980's, Balkerne Asset Management has built a strong tradition for offering both bespoke and model Discretionary Portfolio Management services, tailored to the objectives and risk profile of their clients. With a team of experienced and knowledgeable individuals within the investment and financial services professions, Balkerne Asset Management are well positioned to manage a broad range of investment portfolios inclusive of a diverse spread of assets across all market and geographic sectors. Detailed attention to the daily management of portfolios is a critical aspect of the firm's process and has helped earn Balkerne Asset Management a respected reputation for providing a unique approach to discretionary portfolio management for discerning clients.
