Investment Objective

The Balkerne Asset Management Balanced MFS (Managed Fund Service) is an actively-managed portfolio of 15 to 30 holdings, with a minimum cash holding of 2% and has the Investment Objective to provide long-term capital appreciation and income with a **Medium Risk Profile**.

Suitability

This portfolio is suited to clients who are willing to take the degree of risk necessary to achieve a potentially higher return than can normally be achieved by an 'Income' portfolio approach, with a bias towards equity market growth. Potential returns will be sought from a balanced portfolio of assets, used in the 'Income' portfolio, as well as a wider range of capital growth and income generating assets which may experience higher levels of volatility, but the potential to provide a higher return. Investors understand that the value of their investments, and the income from them, are not guaranteed and may rise and fall to a greater extent than with an 'Income' portfolio.

Investment Policy

To achieve the investment objective by investing principally, but not exclusively, in fixed-interest/bond and cash investments (minimum weighting 17%), UK blue-chip equities (minimum weighting 40%) and, as appropriate, property, international (minimum weighting 5%) and specialist stocks through collective investments and alternative investments (such as absolute return funds or multi-asset strategy funds).

Valuations & Reporting

Quarterly valuations are issued as at 31 March, 30 June, 30 September and 31 December each year. Included with the valuation is a schedule of income received for the period.

Asset Allocation (as at 25/07/2022)

Lead Manager's Commentary as at 30.06.22

The Balanced MFS returned **-14.2%** over the second quarter of 2022 and **-20.3%** over the last 12 months.

Performance was driven by both asset allocation and stock selection. We hold a neutral weighting in fixed-interest/corporate bonds. Our best performing funds over the quarter being L&G Global Inflation Linked Bond Index Fund and Royal London Corporate Bond Fund .

The Balanced MFS holds a neutral weighting to equities. Outperformers in the quarter included the Slater Growth Fund, AXA Framlington UK Mid Cap Fund, EdenTree Responsible and Sustainable UK Equity Opportunities Fund and Schroder Oriental Income Trust. Underperformers included Baillie Gifford UK Growth Trust, Scottish Mortgage Trust and Artemis Positive Future Fund.

We are overweight alternative assets. Our best performing commercial property holding was Londonmetric Property REIT and our best performing alternative was JLEN Environmental Assets Trust.

One new holding was established in the quarter, Target Healthcare REIT. Two positions were exited in the quarter, Baillie Gifford Japan Trust and L&G Active Sterling Corporate Bond Fund.

The Balanced MFS is defensively positioned as the extended period of low interest rates and benign credit conditions comes to an end. We favour alternative income producing assets, with some inflation protection and a balanced exposure to UK & International equities and corporate debt, whilst retaining a zero weighting to direct sovereign debt.

Company Profile

At Balkerne Asset Management we have always held the belief that managing client monies is a privilege and not a right and it is this ethos which underpins the day to day management and processes within the organisation.

Established since the early 1980's, Balkerne Asset Management has built a strong tradition for offering both bespoke and model Discretionary Portfolio Management services, tailored to the objectives and risk profile of their clients. With a team of experienced and knowledgeable individuals within the investment and financial services professions, Balkerne Asset Management are well positioned to manage a broad range of investment portfolios inclusive of a diverse spread of assets across all market and geographic sectors.

Detailed attention to the daily management of portfolios is a critical aspect of the firm's process and has helped earn Balkerne Asset Management a respected reputation for providing a unique approach to discretionary portfolio management for discerning clients.
