Investment Objective

The Balkerne Asset Management Growth MSS (Managed Stockbroking Service) is an actively-managed portfolio of 30 to 45 holdings and has the Investment Objective to provide long-term capital appreciation, with less emphasis on income, and a Higher than Medium Risk Profile.

Suitability

This portfolio is suited to clients who understand that the level of potential return on their investment should increase as a result of taking greater risk. They also understand that to achieve the potential for higher returns, their investment may fluctuate substantially at times, but that over the longer term they could achieve a higher level of return than from a 'Balanced' portfolio. The value of investments, and the income from them, are not guaranteed and may rise and fall to a greater extent than with a 'Balanced' portfolio.

Investment Policy

To achieve the investment objective by investing principally, but not exclusively, in UK blue-chip equities (minimum weighting 50%) and, as appropriate, fixed-interest/bond investments, property, international (minimum weighting 10%) and specialist stocks through collective investments and alternative investments (such as absolute return funds or multi-asset strategy funds).

Valuations & Reporting

Quarterly valuations are issued as at 31 March, 30 June, 30 September and 31 December of each year. Included with the valuation is a schedule of income received for the period.

Lead Manager's Commentary as at 31.03.25

The Growth MSS returned -1.0% over the first quarter of 2025 and -0.5% over the last 12 months.

Performance was driven by both asset allocation and stock selection. We hold an overweighting in fixed-interest/corporate bonds. Our best performing funds over the quarter being Jupiter Strategic Bond Fund and Royal London Corporate Bond Fund.

The Growth MSS is overweight equities. Outperformers in the quarter included Lloyds Banking Group, Prudential, Aviva, Standard Chartered, GSK and Scottish Mortgage Trust. Underperformers included Liontrust Asset Management, Kainos Group, Edinburgh Worldwide Trust and Artemis US Smaller Companies Fund.

We are overweight alternative assets. Our best performing commercial property holding was Tritax Big Box REIT and our best performing alternative was Supermarket Income REIT.

Two new holdings were established in the quarter Artemis US Smaller Companies Fund and JPMorgan American Trust. One position was exited in the quarter Rio Tinto.

The Growth MSS is positioned to benefit from the recovery in the western world and take advantage of lower interest rates. We favour income producing assets, with some inflation protection and a balanced exposure to UK & International equities and corporate debt, whilst retaining a minimal weighting to direct sovereign debt.

Company Profile

At Balkerne Asset Management we have always held the belief that managing client monies is a privilege and not a right and it is this ethos which underpins the day to day management and processes within the organisation.

Established since the early 1980's, Balkerne Asset

Management has built a strong tradition for offering both bespoke and model Discretionary Portfolio Management services, tailored to the objectives and risk profile of their clients. With a team of experienced and knowledgeable individuals within the investment and financial services professions, Balkerne Asset Management are well positioned to manage a broad range of investment portfolios inclusive of a diverse spread of assets across all market and geographic sectors.

Detailed attention to the daily management of portfolios is a critical aspect of the firm's process and has helped earn Balkerne Asset Management a respected reputation for providing a unique approach to discretionary portfolio management for discerning clients.
